## Who would you call if:

It was 2am on a Sunday morning in the  
depths of Winter and you discovered a burst  
pipe upstairs leaking into your living room?

You were alone in the house and found your  
front door had been tampered with and it  
wouldn't close.

**Our customers have  
found themselves in  
these situations.**

Whether it's a burst pipe at 2am, a broken  
window when you're about to go on  
holidays, or a damaged roof slate when  
there's a storm, houses can spring all sorts  
of unpleasant surprises

When your car breaks down, it's a hassle.  
But if you're an AA member, one phone call  
means help will turn up in a friendly yellow  
van – wherever you are.

So why can't your house rely on the same  
reassurance?

With AA Home Rescue, it can, 24/7, 365  
days a year with no call out fee.
